Shimanami Kaido Cycling

“Setouchi Shimanami Kaido” connecting islands floating on the Seto Inland Sea; nestling between Onomichi city, Hiroshima and Imabari city, Ehime with nine bridges is known as *a holy ground for cyclists*, attracting many domestic and overseas bicycle enthusiasts alike. In 2014, the Shimanami Kaido concluded a sister motoring road agreement with “Sun Moon Lake Cycling Course” in Taiwan. The monument to this cyclists’ holy ground is located on the Roadside Station, Tatara Shimanami Park (Omishima, Imabari city).
